24/3/2022 - Over-extraction can have dire consequences, including land subsidence and conflicts linked to scarce supplies. In 2018, when India suffered what was seen as the worst water crisis in its history, a report by a government think-tank predicted that at least 40 per cent of its 1.3 billion population would have no reliable access to drinking water by 2030. 12/4/2022 - Within the Keppel Club site, about 10 hectares of green spaces will be set aside as parks and open land, amounting to 20 per cent of the area, or 18 football fields, he added. Through SMIT Salvage we provide emergency response, salvage and wreck removal services. The company has an unparalleled track record responding to ships in distress anywhere in the world from four strategic locations - Rotterdam, Houston, Cape Town and Singapore.
